If the weather was fine the work of laying the cable to Molokai was to go on.

The Hawaiian Board has published in the Hawaiian language a collection of Scripture texts, "The Saviour's Call." They are printed in colors, and designed to be hung upon the wall in the sitting room. They are very prettily gotten up, and sold at the nominal price of 10 cents each. Mr. Moody's famous sermon on 'The Blood" has also been translated into Hawaiian. It is sold at the Book Rooms at 5 cents each.

Maul Notes.

On Saturday last occurred the first wedding in the new church at Paia. M J. O. Desborough of Kohala was married to Miss Caroline Rathbone, sister of Mrs. A. G. Burchardt; by Rev. T. L. Gulick. The church was beautifully decorated with flowers and ferns, a bank of which covered the whole front of the church. Above and back were two vases on the flanks filled with lovely cala lilies from Olinda, and in the center was thrown forward a green arch in the center of which hung a bridal bell of Marguerites. Although the weather was bad, a large number of the neighbors attended the an hour later. The honeymoon will be spent at Erehwon, just under the everspent at Erehwon, just under the ever-changing bridal wreath of the clouds of Haleakala.

THE LEPROSY QUESTION.

The Bush-Wilcox Method of Dealing With the Matter.

Mr. Bush's usual method of attack on the Reform Party is to "cuss" the "missionaries" and rave about rascality, incompetence, etc., on general principles, without descending to specifications.

Once in a while, however, he ventures out of his ambush and makes a specific charge, the entire falsity of which is invariably immediately shown. Hereunder we publish a sample of this method of procedure:

A Moonlight Ride.

Yesterday evening the guests of the Hamilton House and Waikiki Villa had a most delightful outing. One of the largest 'busses in town was engaged and drawn by four horses, the merry party were driven up the Punchbowl road and to other points of interest. It was a nice moonlight night and the drive was thoroughly enjoyed by all who participated. On returning to the Hamilton House, one of those famous lunches for which this popular place is noted, was provided in the dining hall, and it is needless to say that ample justice was done it.

In this connection it may be stated that the Hamilton is full of guests, and applications are being received by Host Johnson every day, which he is obliged to refuse. But in the near future there is a possibility that some extensive altera-tions will be made, whereby he will be able to accommodate a larger number of guests. The popularity of the Hamilton is not confined to this city alone, but has spread abroad, and this is due in the main to the excellent management. Not a single complaint has ever been made by anyone staying at this house and its branch at Waikiki.

A WORD ABOUT THE BOLT DIE STOCK. NO TURNING BACK OVER THE THREADS AFTER IT IS ONCE CUT, IS A

prominent feature of the "Duplex."

All mechanics agreeing that the turning back against the cutting edge injures the When the "Duplex" dies become dull by CUTTING, they can readily be renewed by sharpening on a grindstone. Thus making the life of these dies longer, at least by four fold than any other made, and at the same time avoiding the common occurrence of stripping or weakening the thread and rendering the work worthless.

This tool, when set to any desired size, can instantly be released and lifted off and reset to same size without trial, thus insuring all the threads uniformly alike. It adjusts to all the variations in iron—rough, oversized iron is shaved to standard size and threaded at the same time. This cannot be accomplished with any other Die Stock. The "Duplex" being the only tool made allowing one set of dies to accurately cut two distinct sizes—in the adjustment no wrench, screw driver or any extra tool being used—and when adjusted is as rigid as a solid die, and will do at least one-third more work in the same space of time. We solicit a comparison with other makes, both as to range of sizes each tool cuts, and prices, as well as price of extra dies. dies much more than the actual cutting.
